

Notice of Intent to Apply for Coverage Under MS4 General Permit

Form 3400-191 (R 3/06)

Page 1

Notice: This application is authorized by s. 283.37, Wis. Stats., and chs. NR 151 and 216, Wis. Adm. Code. Personally identifiable information on this form may be used for other program purposes and may be made available to requestors under Wisconsin's Public Records laws and be posted on the Department's internet site.

Instructions: Complete the following for all permit applications. If additional space is needed to respond to a question, attach additional pages. Provide descriptions below that explain the program activities that you expect to develop and implement to comply with the Municipal Separate Storm Sewer System (MS4) general permit (<http://dnr.wi.gov/org/water/wm/nps/stormwater/muni.htm>). Section 3 of the MS4 general permit contains the compliance schedules that direct when the individual program activities need to be developed and submitted to the Department for review. The detailed programs that are developed and submitted to the Department for review may deviate from the program activities described below if necessary. The descriptions provided below are necessary for the Department to verify that the municipality's program activities comply with the permit.

SUMMARY OF APPLICATION

Outagamie County is submitting the notice of intent to apply for coverage under MS4 General Permit. Each section of the permit application requires that the applicant provide a summary of the community's program activities.

Outagamie County has completed the requirements of some sections and is currently working on completing the requirements of other sections.

Outagamie County will formulate a plan of action in 2006 and 2007. The county will begin implementation of the plan in 2008 to meet the required time lines of the permit.

Outagamie County will provide additional information to the department and provide the specifics to the department as the entire program develops.

The implementation of the permit requirements may have a significant impact on future budget issues for Outagamie County. I believe that the cooperation of all the municipalities within the urbanized area of Outagamie County is imperative in order for the program to be a success, and meeting the clean water standards.
